

# AAYUSH UJJWAL

## Data Scientist | Machine Learning Engineer | AI Specialist

Bangalore, India | +91 7857907674 | aayushujjwal@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

Data Scientist with 1+ year of industry experience building production ML models, customer segmentation systems, and predictive analytics pipelines driving revenue growth and marketing ROI. Proficient in Python, SQL, TensorFlow, PyTorch, deep learning, NLP, and statistical modeling. Proven ability to translate complex data into actionable business insights. Passionate about deploying scalable AI solutions across cross-functional teams.

### TECHNICAL SKILLS

**Languages:** Python, R, JavaScript, C++, SQL

**ML / AI:** Scikit-learn, TensorFlow, Keras, PyTorch, XGBoost, LightGBM, NLP, LLMs, Deep Learning, CNNs, RNNs, Transformers

**Data & Analytics:** Pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly, Power BI, Tableau, Statistical Modeling, A/B Testing

**Databases:** MySQL, PostgreSQL, MongoDB, SQL Server

**Tools & Frameworks:** React.js, Node.js, Express.js, Next.js, Git, Docker, Jupyter, Apache Spark, ETL Pipelines

**Cloud & MLOps:** AWS (S3, SageMaker), Google Cloud Platform, MLflow, CI/CD, REST APIs

### PROFESSIONAL EXPERIENCE

#### AI Engineer

Jan 2025 – Feb 2026

*Devout Growth Media Pvt. Ltd.*

**Tech Stack:** Python, Machine Learning, Pandas, NumPy, SQL, Power BI, Data Visualization, ETL Pipelines

- Engineered AI-driven customer segmentation and predictive models to improve marketing campaign targeting and conversion performance.
- Built and optimized data pipelines and ETL workflows to process large marketing datasets for machine learning and analytics applications.
- Applied machine learning algorithms and statistical analysis to identify market trends and generate actionable insights for clients.
- Developed interactive dashboards and visual reports to translate complex data insights into clear business recommendations for stakeholders.

#### AI Engineer Intern

Jul 2024 – Jan 2025

*Devout Growth Media Pvt. Ltd.*

**Tech Stack:** Python, Machine Learning, Pandas, NumPy, SQL, Power BI, Data Visualization, ETL Pipelines

- Developed customer segmentation models using Machine Learning to analyze behavioral data and improve targeted marketing strategies.
- Assisted in building predictive analytics models to identify customer trends and support data-driven marketing campaign optimization.
- Designed ETL pipelines and data processing workflows to clean, transform, and structure marketing datasets for analytics and reporting.

### KEY PROJECTS

#### Talent Scout – AI-Powered Hiring Assistant | [Live Demo](#)

- Built an intelligent recruitment tool using NLP-based semantic similarity to analyze resumes, match candidates to job descriptions, and provide data-driven hiring recommendations, reducing screening time by ~70%.
- Tech Stack: Python, NLP, LLMs, React.js, Next.js, Vercel, REST APIs.

#### Smart Strategies for Enhanced EV Battery Performance

- Built a predictive maintenance model using LSTM neural networks on 100K+ telemetry data points to forecast battery degradation with 92% accuracy; engineered 20+ features improving F1-score by 18%.
- Tech Stack: Python, TensorFlow, Pandas, Scikit-learn, Matplotlib, Jupyter Notebook.

#### Fake News Detection System using NLP

- Developed NLP classification system using TF-IDF and ensemble models (LR, SVM, RF) achieving 96% accuracy on 40K+ articles; BERT embeddings improved precision by 8%.
- Tech Stack: Python, NLTK, Scikit-learn, TF-IDF, BERT, Pandas, Flask.

### EDUCATION

#### MS in Data Science (*Pursuing*)

2026 – 2028

*Vellore Institute of Technology (VIT)*

#### BCA in Artificial Intelligence & Data Science

2022 – 2024

*KR Mangalam University*

#### Bachelor in Data Science

2021 – 2022

*SP Jain School of Global Management*

### CERTIFICATIONS

- [R Programming for Data Science](#) | [Deep Learning & Neural Networks](#) | [ML & Pattern Recognition](#)
- [Data Visualization & Story Telling](#) | [View All Certificates](#)
